

Financials

With liquid assets totaling \$80,000 and no debt or significant liabilities, Friends in Action (FIA) is financially stable and well-managed. FIA has operated on a balance budget for all of its fourteen years. Over 77% of FIA's annual revenue comes from individual donors (through events and direct contributions). Programming costs make up over XX% of FIA's annual expense budget, including personnel to conduct programs and work with participants.
